PROFITS THAT PAY UP

On Bybit

Rebate percentage tier comes from both Takers' and Makers' Volume.

Commissions are calculated on Takers' Volume only and do not subtract Makers' Volume as others do.

Total Trading Volume		Commissions	
ETH	BTC	on Profit*	on Volume**
> 0	> 0	20%	0.010%
> 5,000	> 500	24%	0.012%
> 10,000	> 5,000	30%	0.015%

*Current example provided for a 50/50% maker/taker volume for easier comparison.

**As opposed to others, Bybit applies commissions on takers' volume only.
